OBJECTIVE

Motivated Computer Science undergraduate at MANIT Bhopal with strong foundations in Data Structures, Web Development, and Backend Engineering. Passionate about building scalable full-stack applications using Flask, SQL, and modern web technologies. Seeking opportunities to apply problem-solving, software development, and analytical skills in real-world projects while continuously improving technical expertise in software engineering and backend development.

EDUCATION

Maulana Azad National Institute of Technology (MANIT), Bhopal

2024 – 2028

Bachelor of Technology in Computer Science

Bhopal, Madhya Pradesh

- Relevant Coursework: Data Structures, DBMS, OOPs, Computer Architecture, Web Development

TECHNICAL SKILLS

Programming Languages: C++, C, Python, JavaScript, HTML, CSS

Frameworks & Tools: Flask, SQL, SQLite, Git, GitHub, VS Code

Libraries: Pandas, NumPy, Chart.js

Core Concepts: Data Structures & Algorithms, OOPs, DBMS, REST APIs

PROJECTS

Student & Attendance Management System | *Flask, SQL, JavaScript*

- Built a web application to manage student attendance and records efficiently.
- Implemented CRUD operations and integrated SQL database management.
- Created REST APIs for seamless frontend-backend communication.
- Managed and processed 500+ student records effectively.

Personal Finance Tracker | *Flask, SQLite, JavaScript, Chart.js*

- Developed a finance tracking application with secure user authentication.
- Added expense visualization and analytics using Chart.js.
- Integrated SQLite database for efficient and secure data storage.
- Designed a responsive interface for tracking daily expenses.

ACHIEVEMENTS

- Solved 150+ DSA problems on LeetCode.
- Strong understanding of arrays, linked lists, stacks, queues, and graphs.
- Built multiple full-stack web applications using Flask and SQL.

CERTIFICATIONS

IoT & Sensor Technology Workshop

Vision Society, MANIT

- Learned hardware-software interfacing and sensor integration.
- Worked on real-time IoT communication and automation systems.
